EasySSM Installation Guide

1 Running Environment

a. Operating system Windows 7 or higher

2 Install NI-MAX

Currently, NI-VISA is packaged in two versions: Full version and Run-Time Engine

version. The full version includes the NI device drivers and a tool named NI-MAX

which is a user interface to control and test remotely connected devices. You need

to install the full version of NI-VISA.

You can get the NI-VISA 15.5 full version or higher version from

https://www.ni.com/en-us/support/downloads/drivers/download.ni-visa.html#306031.

a. Double click the NIVISA 15.5 full.exe, a dialog will be shown as below:

b. Click Unzip, the installation process will automatically launch after unzipping files. If your computer needs to install .NET Framework 4, it may auto start

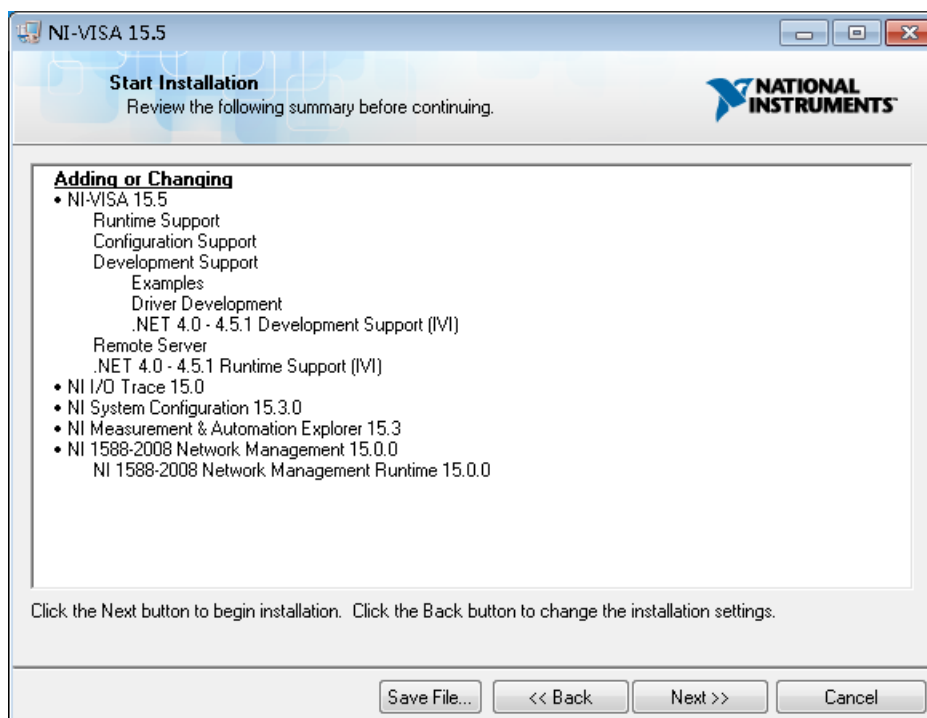

c. The NI-VISA installing dialog is shown above. Click Next to start the installation process.

d. Set the install path. The default path is "C:\Program Files\National Instruments\". You can change it. Click Next.

e. Click Next twice, in the License Agreement dialog, select "I accept the above 2 License Agreement(s).",and click Next.

f. Click Next to begin the installation.

g. Wait until the installation is completed, and then reboot your PC.

h. After reboot, run the EasySSM and refer to SSM5000A_UserManual.
